Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-11,13,14 and 18-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The Flux of $x = \text{SGF}(F_{\text{Ex}} - F_{\text{RBx}})$ as disclosed on page 42 line 2 of the specification is ambiguous, since it is state on page 42, line 1 that $F_{\text{Ex}} = F_{\text{RBx}}$. Accordingly, if such a statement that $F_{\text{Ex}} = F_{\text{RBx}}$ was always correct then the Flux of gas x would always be zero which would make the claimed determinations of the flux of gas "X" ambiguous. Clarification is respectfully requested.

Claims 11,13,14,18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regard to claim 11, the method claim is indefinite since it lacks any explicit method step. Also in regard to claim 11, clear and proper antecedent basis for the "gas flow meter" (line 9) should be defined and "the" (line 9, second occurrence) should be -- an --.

Response to Arguments

Applicant's arguments with respect to claims 1-11,13,14 and 18-29 have been considered but are moot in view of the new ground(s) of rejection.
